EDUCATION

University of Washington

2015 – Present

Ph.D. in Computer Science

M.S. in Computer Science

2017

Advisor: Dan Grossman

Programming Languages & Software Engineering

University of Maryland, College Park

2008 – 2012

B.S. in Mathematics and Computer Science

Advisor: Lawrence Washington

Honors Thesis: [An Elliptic Curve Threshold Key Establishment Scheme](#)

RESEARCH VISION

My main interest is in making program **verification** using interactive theorem provers more accessible through better **proof engineering** tools and practices, especially when it comes to *maintaining* proofs as programs change over time. My vision is a future of verification that is accessible to all programmers, not just to experts. I believe that this will help make software more reliable and secure.

CURRENT RESEARCH

Coq Change Analytics

with Alex-Sanchez Stern, Sorin Lerner, and Dan Grossman

In recent years, verification efforts using interactive theorem provers like Coq have reached large, critical software projects. With this scale comes an interest in new proof engineering principles and technologies. In spite of this, there is little data on the development processes of proof engineers in the wild. We are developing and deploying a Coq plugin to a group of proof engineers that collects data on the changes that proof engineers make in development, then analyzing the data and using it to inform the next generation of proof automation tooling.

STUDENTS ADVISED

Taylor Blau.
Verifying δ -CRDTs.
Work in Progress.

Jasper Hugunin (now at CMU).

FOSSACS 2019.

HONORS & AWARDS

NSF GRFP Fellow
Graduated with Honors in Computer Science
Graduation Speech Finalist
Corporate Scholar
Scholar Athlete

University of Washington
University of Maryland
University of Maryland
University of Maryland
University of Maryland

MENTORSHIP, DIVERSITY, & OUTREACH

UW CSE Care Committee *2019 – Present*
Lead organizer of a support network for graduate students in times of need.

Jewish Family Services *2017 – Present*
ESL tutor and friendly visitor for an elderly refugee.

UW CSE *2015 – Present*
Mentor for undergraduate women and graduate students in computer science.

UW QMP *2016 – Present*
Mentor for LGBT students from any major.

The Identity Function *2016 – Present*
Author of a [blog interview series](#) about LGBT computer science researchers.

TUNE House *2015 – 2016*
Mentor for undergraduate women in computer science.

Amazon

2012 – 2015

Technical and career mentor for software engineers.

SERVICE**POPLmark 15 Year Retrospective Panel Lead Organizer**

2020

CAV Artifact Evaluation Committee

2019

CoqPL Program Committee

2019

POPL Artifact Evaluation Committee

2018, 2019

ITP Sub-Reviewer

2018

University of Washington Graduate Admissions Committee

2018

DeepSpec Summer School Student Talks Organizer

2017

INVITED TALKS**Proof Engineering Tools for a New Era**

Fall 2019

Rising Stars in CS Lecture Series. UMass Amherst.

INVITED SEMINARS AND WORKSHOPS**Dagstuhl Seminar**

Spring 2020

Static Methods for Correctness of Model and Program Transformations

Coq Users and Developers Workshop

Summer 2018, 2019

An Event for Understanding, Improving, and Extending Coq

Rising Stars

Fall 2019

An Academic Career Workshop for Women in EECS

TEACHING**University of Washington**

Fall 2018

Teaching Assistant for *Concepts of Programming Languages***University of Washington**

Winter 2016

Teaching Assistant for *Compilers***University of Maryland, College Park**

Spring 2012

Teaching Assistant for *Computer and Network Security***University of Maryland, College Park**

2010

Mathematics and Computer Science Tutor for Student-Athletes

INDUSTRY**Amazon**

Summer 2016

Research Scientist Intern

Worked with the Automated Reasoning Group on automatic test generation. Developed a solver-aided domain-specific language to generate test inputs.

Amazon

2012 – 2015

Software Development Engineer

Worked with a team to develop the AmazonSupply website. Wrote and deployed code used company-wide and loaded hundreds of thousands of times per day. Developed a data flow analysis tool. Launched Amazon Business.

Amazon

Summer 2011

Software Development Engineer Intern

Developed an internal web application to generate metadata for the AmazonSupply website in a safe and user-friendly manner. Enabled version control and staging for the metadata.

Carr Astronautics

2010 – 2011

Corporate Scholars Program – Software Intern

Assisted in the development of a parallel image mosaicing application. Wrote code in C, MATLAB, and Java to read, alter, and write TIFF images with associated geographic data. Awarded a scholarship through the University of Maryland's Corporate Scholars Program.

INTERESTS

Other academic interests of mine include **domain-specific languages, program analysis, type systems, category theory, algebra, computer security, and cryptology.**

I enjoy writing **Coq plugins** and have implemented several tutorial plugins to help other plugin developers. I am a contributor to the Coq proof assistant. I have also [extended](#) Rosette to handle strings.

My favorite programming languages are **Coq, OCaml, and Rosette.**

I compete for **Club Northwest**, a top distance running club. I served on the board of Club Northwest from 2015 to 2016. My role was to promote our top runners through social media and writing. I ran **NCAA Division I Cross-Country** in 2009.

I also enjoy **logic and number puzzles, writing poetry, singing, studying Russian, making bagels, and composing music for the piano.**
